

Route Number:	RT19		
Route:	Silver Meteor		
	FY 2006	FY 2007	FY 2007 better (worse) than FY 2006, percent
Basic operations			
Route mileage between the two principal endpoints	1,389		-
Train-miles	968,051	1,011,870	4.5%
Traffic and revenues			
Passenger-trips	272,879	291,735	6.9%
Average load factor	57.4%	59.8%	2.4%
Number of cities served directly	32		-
Percentage of traffic in most important city-pair	9%	5%	-
Passenger revenue	\$25,152,551	\$26,665,602	6.0%
Total route revenue	\$27,940,228	\$29,479,215	5.5%
Service quality			
On-time performance: Average endpoint delay-minutes per train operation	134	77	42.7%
On-time performance: Average endpoint delay-minutes per 100 miles traveled	9.7	5.5	43.1%
Financial performance - per Amtrak's "Strategic Business Line" format			
<i>NOTE: Route performance results exclude Federal support for operations, unallocated system costs, and capital charges. Also excluded from the calculations are depreciation and interest. These results must be regarded as preliminary and provisional as the FRA (with Amtrak's cooperation) has undertaken a study of "avoidable" and "fully allocated" costing methods on a route-by-route basis, as mandated by Congress in the Consolidated Appropriations Act, 2005 (section entitled "Grants to the National Railroad Passenger Corporation").</i>			
Route profit/(loss) per passenger-mile, based on avoidable expenses (see NOTE above)	(\$0.075)	(\$0.046)	39.2%
Route profit/(loss) per passenger-mile, based on total attributed expenses (see NOTE above)	(\$0.191)	(\$0.183)	4.5%
